

MODEL 124

WIRE MESH BELT CONVEYOR

Titan offers the **Model 124 Wire Mesh** with two styles of decks. The roller bed deck is used for heavy loads over long distances, and the longitudinal deck offers an open style for better air flow. Wear strips are furnished in steel, stainless steel or plastic depending on the application. The standard belt is 1/2" x 1" galvanized flat wire mesh with clenched selvage edge. Numerous optional types of belts are available including heavy-duty, stainless steel and balanced spiral. Wire mesh belt- ing is ideal for handling parts that are hot, have to be washed down, dried or cleaned. Belt widths of 12", 18", 24", 30", and 36" are supplied as standard
