

# MODEL 204

## FLOOR TO FLOOR SLIDER BED

**TITAN**<sup>TM</sup>  
CONVEYORS

Titans' **Model 204 Floor to Floor slider bed** adds flexibility to your manufacturing process by allowing you to utilize valuable floor space more effectively. The double nose over with bend rollers allows a smooth transition of the product from incline to horizontal thus protecting fragile products. The Model 204 uses a 4" diameter crown faced rubber lagged drive pulley with a rugged 4" deep formed 12 gauge box style frame. Adjustable "H" type supports or ceiling hanger brackets are furnished as standard equipment. A center drive and take-up can be added for reversing applications. The design of all Titan conveyors allows you to add components easily to achieve a completely integrated material handling system.
