

MODEL 304 CLEATED BELT CONVEYOR

The rugged **Model 304 Titan Parts Conveyor** is designed to handle various types of products. The Model 304 allows you to convey and elevate product from one machine to another. The Model 304 is offered in seven belt widths with standard units up to twelve feet long. The standard frame design incorporates 3 1/2" high siderails and an enclosed bottom pan for the belt return. Options such as infeed hopper, adjustable fixed supports add to the flexibility of this unit.

The optional adjustable undercarriage features eight inch diameter steel wheels for easy handling over rough surfaces.
