

# Model 350 “PRO FEED”

## STEEL BELT PARTS FEEDER

**TITAN**<sup>TM</sup>  
CONVEYORS

Feed almost any type of part imaginable - easily and jam free with the **Titan “Pro Feed”** parts feeder. “Pro Feed” will accept almost any size or type of part. The large (7 cubic foot) hopper allows you to dump parts, walk away and let the “Pro Feed” do the rest; either continuous feeding or feed on demand to a bowl feeder. One of the unique feature of the “Pro Feed” are the exclusive Titan powdered metal sidewings that completely eliminate any gap between the apron and sidewings that could possibly trap parts. “Pro Feed” comes standard with a 12” wide, heavy duty hinged steel belt, 7 cubic foot hopper, liquid tight bottom pan, 6’ standard discharge height (other discharge heights are optional) and removable parts tray.

Send your sample parts to Titan for testing and evaluation - TODAY!

Custom hopper for delicate parts

Special discharge chute
