TITAN CONVEYORS™

Custom Industrial Conveyors

MODEL 460
3-ROW TROUGH BULK HANDLING

The **Model 460 Bulk Handling Conveyor** is specifically designed to handle large volumes of heavy, abrasive and granular products at a very reasonable cost. The Model 460's rugged construction and certified components provide for long runs and outdoor applications. Carrying 3 roll idlers are spaced on 4' centers in the intermediate section and spaced closer at each terminal. Infeed hoppers, skirting, belt scraper and supports are some of the available options.
