Model AGV

**Rail Guided • Magnetic Tape Guided • Programmable
• Optically Guided**
Delivering what method works best for you!

Titan Conveyors has designed, built and integrated many types of shuttle carts for customers, used with AGV's and operator driven tow vehicle, in a variety of warehousing, production and automated storage and retrieval applications. Designed for moving products on an assembly line or transporting goods through a plant or warehouse, Titan has the experience needed to provide carts that will meet your specific application requirements.

Advantages of AGV's

- Reduce risks of fork lifts
- Flexibility
- Long useful life
- Reliable
- Silent
- Maximum efficiency
