# TABLE TOP CONVEYOR

**TITAN TableTop Conveyors** can serve your transporting, merging, diverting, accumulation problems, curves and changes in elevation. TableTop Conveyors can solve a wide range of processing requirements including labeling, production inspection, product filling and weighing. Stainless Steel options are available for direct food contact and clean room handling.

**TableTop Conveyors** are frequently utilized in snack food, bakery, packaged food, beverage, candy, dairy food, produce, health & beauty industries. Some of the main features of TableTop Conveyors are low friction, strong chain configurations, low noise level, straight running & side-flexing options, high resistance to wear and they easily integrate with existing conveyor systems.

Titan offers a variety of belt widths from 3 1/4" to 12" wide in Delrin thermoplastic, carbon steel, and stainless steel. Bottom mount drive is standard with other drive locations available depending upon your needs.
